

# Streamline Your Parking & Transportation Payments

DivDat delivers secure, seamless payment solutions tailored for the Parking & Transportation industry. Our versatile payment gateway supports multiple channels, ensuring a smooth transaction experience for your parkers.

## SECURE & INTEGRATED PAYMENT PROCESSING

Our payment solutions seamlessly integrate with third-party parking software providers to deliver a unified and efficient payment experience. We prioritize compliance by adhering to PCI DSS standards, ensuring the highest level of security for your transactions.

At DivDat, we focus on regulatory compliance, user experience optimization, and smooth system integration, making our solutions the preferred choice for secure payment processing in the parking and transportation industry

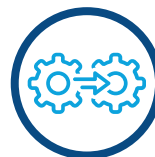

## BENEFITS

**Multi-Channel Payments:** Accept payments in person, online, mobile, and text-to-pay.

**Flexible Payment Options:** Accept cash, ACH, cards, and digital wallets like Apple Pay, Google Pay, Venmo, and PayPal for a seamless payment experience.

**Seamless Integration:** Works effortlessly with leading parking software platforms.

**Enhanced Security:** PCI DSS compliance ensures secure transactions.

## OUR SOLUTIONS

**In Person Payments**

DivDat's payment solutions can be easily integrated into self-service parking kiosk. Allow your team to view all transactions flow through DivDat's real-time reconciliation system for compressive reporting with actionable insights.

**Mobile Payments**

Enable parkers to make payments conveniently through a mobile experience meeting your business rules and requirements. Parkers can set up recurring auto-payments, receive payment reminders, review amounts due in real time, view payment history, and more.

**Online Payments**

Online hosted payment pages tailored for the parking industry, enabling seamless one-time payments. Allow parkers to easily view and pay parking tickets, citations, or set up automated monthly parking payments for a hassle-free experience.

**Text-to-Pay**

Ultimate payment convenience at your parkers fingertips. Simply text payment details to activate, and provide receipt confirmation in real-time.

**Digital Wallets**

Our digital wallets extend past the expected credit, debit, and checking options by allowing customers to utilize the digital channels they use every day on the web such as PayPal, Venmo, Apple Pay, and Google Pay.

**Various Payment Methods**

Accept payments via ACH, credit, debit cards, and digital wallets like Apple Pay, Google Pay, Venmo, and PayPal.

**Transaction Reporting Portal**

Included with all solutions is DivDat's powerful Transaction Reporting Portal which provides real-time transaction-level insights into payment details, payment solution-specific, and more.
